Maybe even better than free.

Files can be downloaded from any computer from our high speed servers. Unfortunately, we can't make that part free. Alternatively you can choose to share your download links on blogs, forums and social networking sites. You decide who you want to share your files with. Using file, you can circumvent those limits without paying to upgrade your team chat service. You can upload any type of file (movies, music, documents, images, zip files and more). filehosting provides an easy possibility for you to send large files to your friends. There are no restrictions on the number of times a file can be downloaded. You can give this download link to your friends by mail or instant messenger. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also,many team chat apps have limits to the size of files that can be transferred within their apps. Just upload the file you want to share with your friends and wesend you a download link to your file. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. It is also allowed to link to thedownload page from websites and communities. So try our free and simple filehosting service now. Any file in any format can be uploaded and downloaded forfree. File is free to use with no gotchas and no hidden fees. We have no file size limit. Files transferred the old-fashioned way tend to pile up and be forgottenabout, eventually costing you money in data storage fees. Simply upload your file and share the link. When you use file, you avoid storing the file you'resending in your cloud storage or mail server. No account or credit card is required to get started. You don't need any special software installed to be able todownload your files. The cost of that data transfer is covered by your internet service or the data plan on your phone. If only we could, we surely would! On theother hand, using file can actually save you money. Our service is completely free for everyone. Keep your files private, or send your download links only tofriends or family. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between yourcomputer or phone and our servers, then from our servers to your friends device.
