These symbols are divided into 9 groups, corresponding to the letters A through I. 1 Press. The message "AI" appears in the display.

<https://www.mieczewo.com/images/control-console-operating-manual.pdf>

2 Press the key for the letter of the group containing the symbol that you wish to add, and then press and until the cursor is positioned under the desired symbol. 3 Press to add the symbol to the text. With your new PT 1180, you can create labels for any application. Select from the many frames, character sizes and styles to design beautiful custom labels. In addition, the variety of tape cartridges available allows you to print labels with different widths and exciting colors. You no longer have to worry about urgent tasks that require professional printing. In the office, the factory, the lab or the home, the quality and performance of the PT 1180 make it an extremely practical machine. Although this machine is easy to use, we suggest that you read this manual carefully before starting and keep the manual in a handy place for future reference. **FCC NOTICE** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. A TZ tape is supplied with this machine. 1 Press in on the rough area at the top end of the machine and fold open the back cover. Should be the exact process as loading batteries. 2 If a tape cassette is already installed, remove it by pulling it straight up. 3 If the ink ribbon in the other tape cassette is loose, use your finger to wind the toothed wheel in the direction of the arrow on the cassette until there is no slack in the ribbon. Also, make sure that the end of the tape feeds under the tape guides.

<https://www.micromegamondo.com/images/control-de-calidad-manual-de-procedimientos.pdf>

Note If you are using a new tape cassette provided with a stopper, be sure to remove the stopper. 4 Insert the tape cassette firmly into the compartment, making sure that the entire back of the cassette contacts the bottom of the compartment. Note When inserting a tape cassette, make sure that the inner ribbon does not catch on the corner of the metal guide. 5 Securely close the back cover, making sure that it snaps into place. 6 Feed the tape by holding down and pressing once, and then push in the tape cutter lever to cut the tape. **LETTERING STICK** The enclosed lettering stick enables you to easily remove the backing from laminated tapes. 1 Hold the tape in your left hand,

with the printed surface facing up, and hold the stick in your right hand. 2 Pass the tape halfway through the long narrow hole in the stick. 3 Turn the stick three-quarters of a turn towards you and pull the stick away from you, as shown below. 4 Peel off the label backing. STARTING Press. If batteries have been installed, the previous session's information is displayed when the machine is turned on. This feature allows you to stop work on a label and turn off the machine, then return to it later without having to reenter the text. The machine automatically turns off if no key is pressed within five minutes. The current session's information is stored in the machine's internal memory and displayed when the machine is later turned on again. CODE KEY By holding down and pressing a key with a function, character or accent written above it, you can use the corresponding function or add the corresponding character to your text. CAPS KEY By pressing to enter Caps mode, you can add uppercase letters to your text by simply pressing the character keys. When this mode is on, the Caps indicator in the top left corner of the display comes on. To exit Caps mode, press until the Caps indicator goes off.

NUM KEY By pressing to enter Num mode, you can add numbers to your text by simply pressing the corresponding keys. When this mode is on, the Num indicator in the bottom left corner of the display comes on. To exit Num mode, press until the Num indicator goes off. DISPLAY This machine's LCD shows one row of 8 characters; however, the text that you enter can be up to 55 characters including spaces. The 8-character display is like a window which moves across the text.

The unit features an eight-character LCD for correcting errors before printing and prints either one or two lines of text. Special printing options include mirror and vertical printing and text framing options. The PT1180 fits in the palm of your hand, so it is easy to carry or rests easily on any flat surface. Familiar typewriter style keyboard allows easy text entry, then just press print, peel, and stick. The tape cutter blade cuts cleanly and safely. The laminated tape is resistant to UV, abrasives, spills, heat and cold. The unit is powered by six AAA batteries, not included. Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. Please try

again later. TriumphNut 4.0 out of 5 stars Works great, the number 4 size is just write for making Labels on Pendeflex hanging File Tabs. Had a devil of a time findihg directions for it on the web that would printed out properly. I used this info to reduce the excessive margins that was wasting tape. Razor Blade Principle. The Tapes were extremely high priced before Obamas inflation made them cheaper. Ive a ptouch PT65, PT85, PT1180 and a PTD200. Diagnosis An Obsessive Label Freak that labels everything.They unit is very light and cute, so I really wanted to keep it. 2. I checked the tape. The quality on Black on White tape which comes with the unit is very good, but there is a really big problem it takes efforts and valuable time to remove a backing.

This is just a label, should be pill the backing off and apply a label. Done. But this was not the case. I do not have time to try to remove the back of the label, so I returned the unit and an extra tape that I bought. Better spend a little bit more, but have the right unit.I did receive a full refund.You could tell it was used but used gently. It was much cheaper than buying a new one. This was to replace the one my wife had that quit working after she dropped it. She wanted the same machine again and this one worked out perfectly.Another version purchased for our office ate a tape causing the roller to break and surprise! the machine was no longer in its warranty. Ive had much better luck with a Casio labeler which apparently uses a different system for their tapes. No consumer joy in this device at all.They are easy and reliable. My only beef with the Brother labelers is that they waste a lot of label. In other words, there is a lot of blank space at the beginning of each label you print. I have to manually cut off that wasted space, which is a nuisance, and then you obviously go through a label cartridge that much faster. Notwithstanding that annoyance, the labeler is indispensable for me. Makes home filing so much clearer. We use it for many things around the house.Should have returned it but just didnt get around to it. Tried using it again today and I am giving up and buying something else. Cant decide whether to trash it or give it to goodwill. It seems that the print area is extended to the right so that when I print out a label there is a blank area and then some of the. Any directions to share.Should tell you how to increase the font sizes. Cant get it to turn on or Cant get it to turn on or No instuction manual. Cant get it to turn on or learn about features.You cant, those spaces are the default Try a different tape. Usually, when the ink and label get screwed up its time to trash. Can you tell me how to fix this problem. Thanks. Hi Jodie,.

Not sure what to do to get the error removed and printing again. Thank you in advance for your help What size tape are you using in the machine. Some of the font s wont work if. Note If there are two lines of text, they are printed with the SIZE1 setting applied, regardless of the selected size setting. To quit the following procedure at any time. How do I change the style font on my label maker. If you go into the menu, and you go down to font. Post your question here in this forum.
