NOTES ON HANDLING THE OPTICAL PICK-UP BLOCK OR BARE UNIT
The laser diode in the optical pickup block may suffer electrostatic breakdown because of the potential difference generated by the charged electrostatic dust, etc., on the disk and the lens assembly. During repair, pay attention to electrostatic breakdown and also use the procedure in the printed matter which is included in the repair parts.
The flexible board is easily damaged and should be handled with care.

NOTES ON LASER DIODE EMISSION CHECK
The laser beam on this model is concentrated so as to be focused on the disc reflective surface by the objective lens in the optical pickup block. Therefore, when checking the laser diode emission, observe from more than 30 cm away from the objective lens.
NOTES ON CHIP COMPONENT REPLACEMENT
• Heatsinks are a disassembled chip component.
• Notice that the mirror side of a tantalum capacitor may be damaged by heat.

However, you are not the only person having problems with keeping the operation manual of all household devices. Below are few guidelines regarding how and why you should collect the product manuals. However, we believe that the manuals should include the most important and needed information about Sony CDXGT270MP, not to discourage the user to read. Obviously, if a device Sony CDXGT270MP has multiple advanced functions, we will not avoid a high amount of information in this document. Then, it will be much easier to find it than look through the purchase boxes which have already been thrown away by you or any other of household members. It will be enough to clear the drawer once in a year and throw away any manuals of the devices you do not use anymore. Thus, you can avoid storing any unnecessary documents and keep only those which

are valid. You can also download and print the manual Sony CDXGT270MP to place it in your drawer. So why would you pick one system and not the other. Is it the design, the output, the technology or the mother brand. Well, have a look at some of the world's bestselling car audio systems and decide what you're going to be listening to on your next road trip. Sony CXSGT3516F If you drive a car worth its salt, the latest Sony CXSGT3516F is something you simply cannot do without. It is one of the most mindblowing car audio systems that is available with a bonus security measure of the detachable faceplate. Audiophiles should know that this system helps you dock music from your iPod, Blackberry, CD, iPad as well as a USB drive. It also comes with a conveniently located USB and auxiliary plugs. What is more is that you can also search your music according to artist, genre or playlist. A true musthave! JVC KDA615 JVC is a company renowned for creating topnotch audio products that are known for their high quality and longevity. Now JVC KDA615 truly delivers to that reputation. This stunning audio system allows you to listen to your favourite tunes on iPod, iPhone, MP3s, CDs and Radio.

One small hitch is that it requires you to use additional accessories KTHD300 for Bluetooth control as well as HD radio, but the good part is that you can still play satellite radio for up to 24 stations as well as plug in your desired media source through the USB port provided. So, get ready for the experience of a lifetime. Pioneer DEHP4200UB Pioneer Electronics, true to its name, have been a pioneer in creating highly innovative and quality audio products since 1938. As for music, you can plug in your MP3 player or plug in a CD. To be able to sync your Bluetooth device you need an additional CDIU50 interface cable. Overall, a great way to enjoy your daily drive. Kenwood KDCHD545U If you are an allthingsHD freak, Kenwood KDCHD545U is the perfect audio system for your car. Along with heady builtin Bluetooth connectivity, it also features a builtin HD radio. While no adapter is required for you to listen to its amazing HD radio, you would require one to sync your Bluetooth device to the receiver. The system features a CD deck that play WMA, MP3 and AAC files from CD, CDR and CDRW formats; you can even plug in your MP3 player or iPod in to the receiver using its front auxiliary input or the USB port. Allinall, a great product for HD lovers. Boss Audio 840UBI Boss will be Boss. As compared to the sea of audio sets available in the market with a maximum output power level of 50 watts per channel, the big bad Boss Audio car stereo claims to have a maximum output power level of a whopping 80 watts per channel. This jazzy system also comes power packed with two RCA preamp outputs through which you can connect your head unit to an external amplifier, which amps up the power and gives you more sound output than a regular builtin amplifier. The audio set is Bluetooth-enabled and can also play music through your iPod when

used with an external cable. It also comes packed with a USB port, an SD memory card port and an auxiliary input for that additional connectivity.

So if you want to hear your music loud and clear, Boss is the way to go. Alpine CDE102 Established in 1978, Alpine Electronics has been specializing in mobile electronics. The Alpine CDE102 head unit is quite impressive in the sense that it can play CDs, MP3s as well as connect to your cell phone using Bluetooth but you'll need to purchase the KCE400BT adapter to be able to use this feature. The system also allows you to connect your iPod, iPhone or other MP3 player through the auxiliary input or the USB port. Not the most snazzy piece when it comes to car audio but it gives most audio units a run for their money! The site provides comprehensive and real time information on Indian corporates, sectors, financial markets and economy. On the site we feature industry and political leaders, entrepreneurs, and trend setters.
