MAKING MODERN LIVING POSSIBLE

## Quick Guide VLT®HVAC Basic Drive FC 101

If the sensor wire leads and the motor with a megohmmeter to between the IGBT and the gate drive card is disconnected, check for earth fault in the motor. Also, check the IGBT thermal WARNING, V supply low sensor. The V DC is measured on the control card. The external ALARM, Illegal power section configuration V DC backup power supply may be overloaded, otherwise contact the Danfoss supplier. The scaling card is the incorrect part number or not installed. Also MK connector on the power card could WARNING, 1.8 V supply low not be installed. The 1.8 V DC supply used on the control card is outside of ALARM, Drive initialised to default value allowable limits. The power supply is measured on the Parameter settings are initialised to default settings after a control card. Check for a defective control card. If an manual reset. Reset the unit to clear the alarm. ALARM, Broken belt ALARM, AMA check Unom and Inom Torque is below the torque level set for no load, indicating The settings for motor voltage, motor current, and motor a broken belt. Broken Belt Function is set for alarm. ALARM, AMA low Inom WARNING, Fire mode The motor current is too low. Check the setting in This warning indicates the frequency converter is operating 4 Current Limit. See the fire mode data in the alarm log. The motor is too big for the AMA to operate. WARNING, Fire mode limits exceeded ALARM, AMA motor too small While operating in fire mode one or more alarm conditions The motor is too small for the AMA to operate. Operating in this condition voids unit warranty. Cycle ALARM, AMA parameter out of range power to the unit to remove the warning. See the fire The parameter values of the motor are outside of the mode data in the alarm log. Select the correct type code in Try to restart AMA again. ALARM, Internal fault WARNING, New typecode Contact your Danfoss supplier. The frequency converter has a new type code. WARNING, Current limit The current is higher than the value in 4 Current Limit. <http://flickinger.fr/case-trencher-manual.xml>
